Boilers & Water Heaters

	Packaged firetube, firebox, vertical tubeless, through-the-door packaged, and alternative fuel boilers
	Copper-finned hydronic boilers, volume water heaters, commercial pool heaters, and tanks; high efficiency and condensing boilers;
	Flexible watertube boilers available in hot water and steam; up to 85% efficient; 20-1,500 HP standard sizes, larger field-erect boilers available
	98% efficient condensing hot water boilers from 484 MBH to 4,079 MBH output; no minimum flow; no pump requirements; use any power burner!
	Electric boilers for hot water and steam; electric volume water heaters
	99% efficient direct-fired water heaters; potable water!
	Custom-built high performance industrial watertube boilers

Boiler Rooms Accessories

	Pumps, DAs, condensate units, vacuum units, boiler feed units, blow-down separators, and custom units; steel, cast-iron, stainless steel
	Heat exchangers and transfer equipment including plate & frame, brazed plate, shell & tube, and custom units; tube bundles; oil heaters
	Complete stack and venting systems for chimneys
	Indirect water heaters for industrial and commercial applications
	Combustion control products for industrial burners; parallel positioning systems; O ² trim systems; feedwater controls
	Stack economizers for boilers can raise boiler efficiencies to 90%
	Mechanical draft solutions ranging from manual speed regulation to fully automated constant-pressure regulation
	Residential, commercial, and industrial water softeners and water filters
	Advanced sequencer controls for boilers, pumps, and air compressors

HVAC

	Direct and indirect-fired heating and ventilating systems; 80/20 air management, make-up air, variable air, air rotation; 98% efficient!

SCANNERS 	SIGHT GLASS 	SOLENOID VALVES 
STEAM TRAPS 	TUBES 	...AND MUCH MORE! 

SERVICE PLANS	<i>Cici Boiler Rooms offers service plans customized for your equipment, schedule, and your organization's budget.</i>
PREVENTATIVE MAINTENANCE	<i>Regular preventative maintenance saves money by ensuring that your equipment is in proper operating condition.</i>
COMBUSTION TUNE-UP	<i>A combustion efficiency tune-up is the easiest way to lower your fuel bills. Technicians provide you with before and after efficiency printouts.</i>
OPENING & CLOSING	<i>Technicians tear down the boiler, inspect for problems, make necessary repairs, and place your boiler back into service with optimum efficiency.</i>
REFRACTORY REPAIR	<i>Technicians can repair or replace cracked refractory, broken tiles, and old brick.</i>
CONTROL UPGRADES	<i>Modernize your boiler by upgrading to the latest control technology. Cici Boiler Rooms can provide all the parts and labor for your next upgrade.</i>
START-UP SERVICE	<i>Factory-trained start-up service is available for all equipment we sell.</i>
TROUBLESHOOTING	<i>Cici Boiler Rooms technicians are on call 24/7 to fix any problem.</i>
